DESIGNS IN NATURE

A customizable urn system that you create.

It has never been so easy to create a custom urn.

Explore different image and colour combinations.

From humble beginnings.

We are a small custom shop and our workers take great pride in their work. We use superior materials to ensure a quality product that is as pleasing to the eye as being structurally sound to stand the test of time.

Over the years we have been developing a more mainstream product that can be supplied to a broader range of customers. We have produced a product which is a cross between the traditional and the modern, customizable to meet each client's needs. All of our urns are made from solid surface material which is highly durable even when left outside. Solid surface materials contain approximately 70% mineral content along with coloured pigments and acrylic resin. In this catalogue we included only a small fraction of the possible variations in colour and design, the rest is up to the individual. Our standard urn holds 225 cubic inches of ashes. Custom sizes can be made.

Thinking outside of the box.

These urns are developed as a customizable construction kit rather than a static, preformed box. All components are interchangeable for urns of the same size. Simply start with a chamber and add coloured panels corresponding with the chamber size. Select from a wide selection of text, images and carvings to add the panels. Experiment with different panel colours, engravings and carvings.

Looking for a companion urn?

By selecting two urn chambers of identical volumes, you can create a companion urn by adding a joining panel between the two chambers. Customize the chambers for individuality or with a central theme.

Off the beaten path.

Our lives encompass a diverse collection of events, interactions, interests and people that form us, so why not express it. If you require something a little different or something you didn't see in this catalogue, ask and we will let you know if we are able to accommodate you.

Most urns are designed to be buried or placed in a niche. We designed our products for a little more.

Our lives are busy. How often are you going to care for a cemetery plot? Why not place your loved one's ashes (in one of our urns) in a flower bed or choice of resting place. You will care for your loved one's resting place and still provide a close connection to them. A shrine can make a statement while maintaining a subdued atmosphere.

Urn Styles

Panel Urns Hand made with quality materials and beautiful craftsmanship, this cremation urn will have an impactful presence in any room, flower garden or stand out in a glass columbarium. The combination of traditional design and modern accents allow these urns to fit as pairs in most columbarium vaults. Our patented system makes it easy to customize an urn to reflect a loved one's life, passions and impact.

Dimensions Approx.: 9.75" x 5.625" x 9.875"
Capacity Approx.: 250 cubic inches
Weight: 13lbs 3oz

Standard Urns

Our standard urns have a simple monolithic design. If desired, carved appliqués can be added.

Capacity Approx.: 225 cubic inches
Dimensions Approx.: 6" x 6.5" x 9.5"

The top panel can be removed for engraving as well as to gain access the the filler plug.

Capacity Approx.: 15 cubic inches
Dimensions Approx.: 3" x 3" x 5"

Pet Urns

Like all of our urns pet urns can be placed and left outside. The top panel can be removed for engraving as well as to gain access the the filler plug.

Capacity Approx.: 130 cubic inches
Dimensions Approx.: 8.5" x 7.5" x 5"

ARTWORK

Relief Carvings

ADD A DIFFERENT DIMENSION TO YOUR URN.

All images are 3D relief carvings. We have an extensive library of available objects. With a total of 5 panels, a snapshot of a person's life can be portrayed. This can include profession, sports and hobbies.

Engraved Images

TEXTURED ENGRAVED IMAGES FROM LINE ART.

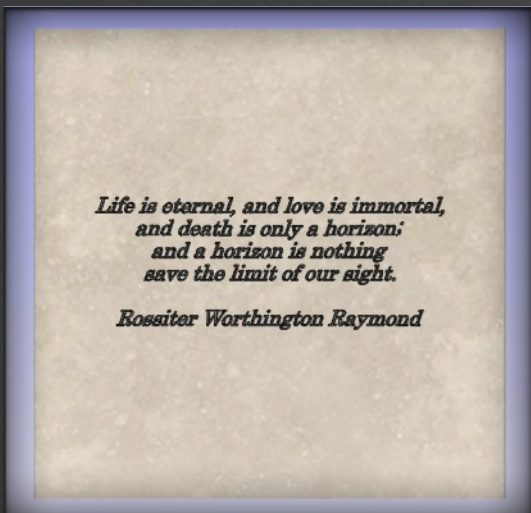

We can take almost any piece of line art and convert it into an engraved image. We can add other adornments such as a perimeter frame or add additional styling to a relief carving. You may have a piece of your own artwork or something of the deceased. Ask us about additional services available. Engraved images can also be filled with a complimentary colour to provide a different effect.

Engraved Text

SAY WHAT YOU WANT TO SAY.

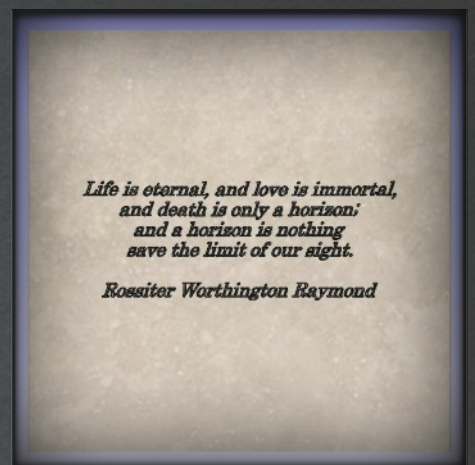

Whether it be a simple name and date, a favourite saying, a poem, song lyrics or some personal reflections, words can leave a lasting impression. Choose plain text or coloured text.

CARVINGS

ENGRAVING

*Life is eternal, and love is immortal,
and death is only a horizon;
and a horizon is nothing
save the limit of our sight.*

Rossiter Worthington Raymond

LIMITLESS POSSIBILITIES

- Text can signify much more than a simple name and date.
- Engraved elements can be unpainted or painted.
- Engraved elements can be used to tell a story. Everyone has a life story to share.
- Are you or was the deceased an artist? Consider using a personal piece of artwork. Images must be submitted in JPG format and consist of black and white only.
- Combine text and image elements on a single panel to add unique taste
- Combine engraved text and/or images with 3D relief carved images

COLOUR EXAMPLES

DEEP NIGHT
SKY

RAIN CLOUD

ESPRESSO

AURORA

IDENTIFICATION & CONSIDERATIONS

Each chamber and panel are inscribed with identification numbers to make ordering simpler.

The ID numbers of the chambers can be found on the bottom removable panel. The ID number has 3 parts to signify the chamber size, the material colour and that it is a chamber component. For example the code 340EarthCR is the code for a chamber with a volume of 340 cubic inches and is made of earth coloured material.

The ID numbers for the decorative panels can be found on the back side of the panel which fits into the chamber. The ID number has 3 parts to signify the which size chamber it fits, the material colour and that it is a panel component. For example the code 340EarthFP signifies the panel s for a 340 cubic inch chamber, it is made of earth coloured material and it is located on the front face of the chamber.

Currently, engraved images and 3D carved images are considered custom items they are not reflected in the ID codes located on either the chambers or decorative panels.

When joining plates are ordered, it is presumed that both chambers are of identical size. That is a 225 cubic inch chamber is being joined to another 225 cubic inch chamber.

Customer supplied artwork will be reviewed and a representation will be sent to the customer for final approval before being processed. That is, we will email you a picture of what is possible for us to replicate.
